

**Warranty:**

We hereby guarantee that the electrical work we performed for your project has been done in accordance with the contract documents and the work installed will fulfill the requirements of those specifications.

We guarantee the system to operate at full capacity without objectionable noise or vibration, and that the system was built and installed to deliver its full rated capacity at the efficiency, for which it was designed.

We agree to repair or replace, or cause to be repaired, any or all of our work which has been proven to be defective in workmanship, or material, because of defective work within one year from the job completion and/or the date of a satisfactory final electrical inspection from the authority having jurisdiction.

It is understood that lamps, improper operation of installed work, natural disasters, or defects from building design or construction, are excluded from this guarantee.
